## Shopping Experience (Sample Essay)

I enjoy shopping, especially when I have free time. I usually go to the mall or shop online to buy clothes and daily items. Before shopping, I make a budget so I can manage my money better.

When I shop, I often compare prices and look for discounts or good bargains. I also read reviews and check product ratings before buying anything. If I buy clothes, I always try them on to make sure the size fits well.

I usually pay by debit card, but sometimes I use a credit card for convenience. After payment, I always keep the receipt. If I am not satisfied with a product, I can return it for a refund or exchange it. Shopping is enjoyable, but I believe it is important to spend wisely, save money, and avoid unnecessary expenses.
